600	600Lph	120L	11W
900	860Lph	180L	11W

Synthesis - Shown with LED light fitted

Synthesis Internal Filter - One product, 3 Uses... Filter - Air Pump - Wave Maker.

Synthesis is a revolutionary filter with built in air pump and patented diffuser for creating an amazing wave effect. The built in submersible air pump means that there is none of the background noise usually experienced with external air pumps, and furthermore the wave effect improves filtering by efficiently re-mixing the water in the tank. Simple to set up and easy to use. There is also a version fitted with an LED light.

Marathon - External Filter

Five models to cater for aquariums from 120 litres to 700 litres.

Each unit has a built in pump and is supplied complete with media and valves.

Marathon - External Filters

Model	Flow Rate	Aquarium Size	Filter Volume	Wattage
300	350Lph	120L	1.8L	6W
500	800Lph	250L	4.7L	12W
1000	1000Lph	350L	5.5L	16W
1500	1600Lph	500L	8.5L	23W
2000	1850Lph	700L	10L	31W

Leo Oxi - Air Pumps (with Optional LED)

Models 100 - 200 - 300

Innovative air pumps that can be used in or out of the water. Because of its unique design there is no vibration and no maintenance required unlike conventional air pumps. Three sizes available with or without LED Lighting.
